

Wicked The Day

Black Swan

Lonely is the road I'm on
Heavy is the load the journey's just begun
I will walk into the dawn
'Til I see your face until the work is done

Somewhere in the distance
Lie the consequences of the past
And those who show resistance
Lose it fast so fast

From the word the final stand
Wicked the day
Always reaping what you sew
A mother's wish to take command
Wicked the day
So it was but given time we'll know
Yes we'll know
Wicked the day
Wicked the day

As the battle rages on
Every passing day another has begun
See how little we have won
And how much we've lost for everything we've done

Somewhere in the distance
Lie the answers we may never find
To our whole existence
We are blind, so blind

From the word the final stand
Wicked the day
Always reaping what you sew
A mother's wish to take command
Wicked the day
So it was but given time we'll know
Yes we'll know
Wicked the day

Waiting for the sound
The point of no return
Entrenched and underground
Bid farewell to heaven bound

From the word the final stand
Wicked the day
Always reaping what you sew
A mother's wish to take command
Wicked the day
So it was but given time we'll know
Yes we'll know
Wicked the day

Wicked the day
Wicked the day
Wicked the day
Wicked the day

Wicked the day
