

## Oscar Rap

Black Thought

I'm hip hop like gazelles in a kango  
They say I'm so off the chain like Django  
I'm on a mission like Argo, I'm not insane though  
I pick my movie tickets up at Fandango  
To see Les Miserables with Russell Crowe and Anne Hathaway  
Them Beasts of the Southern Wild with Quvenzhané  
I'm thinking one of the best was Lincoln starring Daniel Day  
But then again the Life of Pi is definitely a candidate  
What's that movie with De Niro? Hardly talked dirty  
The Silver Linings Playbook or Zero Dark Thirty?  
Even that chick flick Amour is still award worthy  
The Oscars is airing live, I'd hit record early
