

# Hello My Hate

Black Veil Brides

I don't wanna be!

Hello my love, well good riddance and farewell to you.

This marks the day we met on your terms.

Hello my hate, well this marks the day I killed you.

So cuddle, make your bed, we broke the ice... your only dead and...

I don't wanna be!

Another dead-weight victim of love tragedy and

I don't wanna be!

Another "look like James Dean" punk trippin' sanity and

I don't wanna be!

Another straight edge poser preachin'

Let's be smoke free!

Cause all I wanna be!

Is another "who cares" "shot dead" kid, I'm going down, down, down!

I am your hate, you are my love, I am your lust, you are my love drug...

The one that cures me.

Hello my hate, well this marks the day I killed you.

So rest in peace, you made your bed... quit haunting me your only dead!

I don't wanna be!

Another dead-weight victim of love tragedy and

I don't wanna be!

Another "look like James Dean" punk trippin' sanity and

I don't wanna be!

Another straight edge poser preachin'

Let's be smoke free!

Cause all I wanna be!

Is another "who cares" "shot dead" kid, I'm going down, down, down!

I don't wanna be!

Another dead-weight victim of love tragedy and

I don't wanna be!
