

The Legacy

Black Veil Brides

Racing faster, escape disaster
Partners in crime will leave their mark
We make our own way, no thoughts of yesterday
Black hearts with growing battle scars

Woah, oh, oh, the legacy born from a dream
Long leather wings rose from the streets
With the hands on destiny

We came from nothing but promise one thing
We'll change the world with these guitars
So listen closely and don't stop working
No one can tell you who you are

Woah, oh, oh, the legacy born from a dream
Long leather wings rose from the streets
With the hands on destiny

The legacy born from a dream
Long leather wings rose from the streets
With the hands on destiny

Go, run, run, never look back
Run, run, never look back
Run, run, run, never look back, run

The legacy born from a dream
Long leather wings rose from the streets
With the hands on destiny

The legacy born from a dream
Long leather wings rose from the streets
With the hands on destiny
