

## Vale (This Is Where It Ends)

Black Veil Brides

Every word I said  
Echoes in my head  
Like ghosts that haunt the night  
I'm living one last time  
Visions of us fade away  
The mirror we can't hide  
Forever now we'll stay away

Life took another turn  
A hurricane has washed away  
The fire that once burned  
Time taking our true spark  
Chosen but we gave away  
The beat to your broken heart  
I can't put it back together  
No, I won't put it back together  
This is where it ends

Dreams will come and end  
Living with my sin  
A fear that burns so bright  
I lie awake at night  
Missing my heart everyday  
I know inside it's time  
To end this now and face today

Life took another turn  
A hurricane has washed away  
The fire that once burned  
Time taking our true spark  
Chosen but we gave away  
The beat to your broken heart  
I can't put it back together  
No, I won't put it back together  
This is where it ends

Life took another turn  
A hurricane has washed away  
The fire that once burned  
Time taking our true spark  
Chosen but we gave away  
The beat to your broken heart  
I can't put it back together  
No, I won't put it back together  
This is where it ends
