Show No Mercy

Black Water Rising

This cage they build is unable to contain
One whose mind is free in truth there is no shame
True unto myself to climb where others fall
My heart knows no regret I answer to the call
Of those who don't believe

(Chorus)
Watch and learn as I achieve
Fuel my drive their doubt keeps it alive
Standing strong to prove them wrong
For victory I will not long
Lit up brighter than a million suns
Loaded like a cannon and a million guns
Crush that mutha like a million tons
And show no mercy

I refuse to live a lie hiding in retreat
This fire in my heart will not accept defeat
And I will preserve with dignity and grace
Cast aside all fear and spit into the face
Of those who don't believe

(Chorus)

Lit up brighter than a million suns
Loaded like a cannon and a million guns
Crush that mutha like a million tons
And show no mercy
