

Hardly Star - Crossed Lovers

Black

I used to hide,
I used to cry a lot,
But now I don't
It's you, you.
When you smile
The whole world's sky,
When you smile
I'm a star in that sky
It's you, it's you.
And we're barely friends,
We're hardly star-crossed lovers,
But who cares?
It's you, it's you.
When you smile
The whole world's sky,
When you smile
I'm a star in that sky.
It's you, it's you.
It's you.
