

## Under Wraps

Black

The sky is a crisp  
And star-spangled flag  
My bones are like  
Ice-cream cones

Cover me over  
Smother me with kisses  
Like embers...

Cover me over  
Smother me with kisses  
Like embers...

Its warm in here  
She is like an orange glow  
Of blended spirits  
Stokes the fire inside

Cover me over  
Smother me with kisses  
Like embers...

Cover me over  
Smother me with kisses  
Like embers...

Cover me over  
Smother me with kisses  
Like embers...

Cover me over  
Smother me with kisses  
Like embers...

Cover me...
