

Water's Edge

Black

Went to the dog pool and stripped to the skin
Then we stood there laughing 'til
We shivered
Dived in to the water, the water plays over our skin
Like it ought to
But can't come in

I'm calling you Daddy
Put your hands down and run
I love you my brothers, my sisters all
Come to the water
The water plays over our skin like it wants to
But can't
Come in

I go to the dog hole
And strip to the skin
Baptize me my lover
Pull me on into the water
The water runs under my skin
Where it
Finally
Can begin
