

Faith

Blackalicious

Never let life's troubles block your flow
Have faith, and get where you're trying to go
Like a winding river in search of the ocean
You must keep your faith in motion
Never let doubt block faith though
If you want to get where you're trying to go
Up and down or spinning 'round
You gotta keep faith flowing if you want to be around
Crying and whining won't get you through
Your greatest power in all you see, say, and do
Is keep deep faith
