

# Twist of Time

Blackalicious

I remember when we all was geeked  
Hit the button press play and hear all the beats  
Every passer-by stopped so they all could see  
The fulfillment and the fruition of all they dreams  
Back then it was so much fun  
So many laughs, so much ganja, so much rum  
Fresh out the b with plans to get so much done  
Livin' in the college Town with so much young  
Enthusiasm, everybody focused to win  
Where I was from everyone was smokin' to grin  
This new heavy struggle never ended it seemed  
Till I woke up to the fact that I was livin' my dream  
Now I'm going everywhere: London, Rome, and Japan  
I quit my day job, bummin' and broke to havin'  
A glimpse a small slice of the American dream  
Now life is feelin' better than I thought it ever could be  
I think I'll go with this...

Looking back, some will climb  
The futures unknown with the twist of time  
Who come bearin' lessons and gifts combined  
In the mental hidin', begin to find 'em

Looking back, some will climb  
No one's a mistake they're just not aligned  
And life can be great when you hit your stride  
It's the blissful ride of the twist of time

(Out on turn on the TV)  
All of us they threw our song on, MTV gettin'  
Interview from Who[?] and Lala  
The crowds aren't static when we on the stage  
Doin' our job, we winnin' now we doin' it  
It's time that we go all out - rock rock rock  
Rockin' the stage showin' utter command  
And the first time in my life, loanin' money to fam  
Crew expansion out the wood-works people comin' to jam  
Accolades from my heroes, damn how cunning is  
Advocations out relaxin' places livin' in life and study  
Spendin' the cash and maybe livin' the nexus  
Really I'm feelin' blessed and very limited stress with the  
In-consider hearing from the I-R-S... Damn...

Looking back, some will climb  
The futures unknown with the twist of time  
Who come bearin' lessons and gifts combined  
In the mental hidin', begin to find 'em

Looking back, some will climb  
No one's a mistake, they just not aligned  
And life can be great when you hit your stride, it's the  
Blissful ride of the twist of time

And now the world is very different  
It's bug when you start to see your young relatives get big  
I blew a lotta dough but now I'm grown so hey let's get it  
I've tampered with my health

But now I'm workin' on redemption  
Songs in the key of time as it keeps twistin'  
It's a roller-coaster ride so hop on before you miss it  
And it feels good to be healthy, grown and so gifted  
Time will move we goin' with it  
Music flowin' so infinite - lookin' back!

Looking back, some will climb  
The futures unknown with the twist of time  
Who come bearin' lessons and gifts combined  
In the mental hidin', begin to find 'em

Looking back, some will climb  
No one's a mistake, they just not aligned  
And life can be great when you hit your stride, it's the  
Blissful ride of the twist of time
