You, got to groove...
Freeze, stand still, MOVE

Huffin and puffin, this track is bumpin discussion on how we crushin and snuffin

The one's that bluffin, it's nothin and while they lunchin, we bustin to get you, up in the club and

We keep you wantin and dubbin

Dig it like somethin you puffin on

Fill it up in your stomach to your astonishment, on a mission

The marvelous, starvenous, verbal novelist, killin 'em softly

Offin them, often they in a coffin, we drillin' them, taunt 'em all in the tournament, in the bottomless pit again

Pardon me, but this art is like the parliament rockets parkin

All on yo' gardens and +lawns+ just like +potholes+, sonically stompin

Up on a mission of dominance, solid flawless, so obvious

Callin y'all to the ball to get off the wall, everybody yes, YOU
