Blackbear

I keep on running  
Keep on running  
Keep on running  
Keep on running  
I keep chasing your heart  
But I'm always three steps behind

Yeah, I'm all alone  
I'm on my own  
Without your loving  
Without your loving  
Baby, I  
I chase love and die

It's never ending  
Never ending  
The sea sick feeling  
What's the meaning? Oh  
I just need a life line

I'm running away  
I'm running away  
From this mess we made  
I gotta find you  
I gotta find you  
I gotta find you  
I gotta find you  
I'm chasing right behind you  
I need to remind you  
I'm running away  
I'm running away  
I'm running away  
I'm running away  
From this mess I made

And I keep on running  
I keep on running  
Can't see nothing  
Can't see nothing at all  
And everything starts to revolve  
I'm coming down  
Coming down  
Just give me a sign  
Baby just give me something  
I just need you one last time

It's never ending  
Never ending  
All these feelings  
Staring at the ceiling  
So I just put the car in drive

I'm running away  
I'm running away  
From this mess we made  
I gotta find you  
I gotta find you

I gotta find you  
I gotta find you  
I'm chasing right behind  
I need to remind you  
I'm running away

I'm running away  
I'm running away  
From this mess we made  
I gotta find you  
I gotta find you  
I gotta find you  
I gotta find you  
I'm chasing right behind you  
I need to remind you  
I'm running away
