

# bad day

Blackbear

[Intro]

I hope you have a bad day  
I hope you have a bad day

[Verse 1]

The last I heard is you was goin' through it  
Smile on my face, I heard the news yeah  
I might pull up on you in a new whip  
With a pretty little thing, top down, girl you blew it  
You stupid, you knew this would happen, you ruthless  
I can't stop the pain, wonderin' "Why did we do this?"  
You left me for a lame, and my brain can't compute it  
You're clueless, the truth is that

[Pre-Chorus]

If I never seen you again, seen you again  
I would be fine, fine  
And I don't wanna be friends, I know how that ends  
You're wastin' my time

[Chorus]

I hope you have a bad day  
I hope you have a bad day  
I hope you have a terrible, horrible, no good, very bad day  
And I hope that I'm the reason for your bad day  
I hope you have a bad day  
I hope you have a terrible, horrible, no good, very bad day  
And I hope that I'm the reason for your bad day  
I hope you have a bad day  
I hope you have a terrible, horrible, no good, very bad day  
And I hope that I'm the reason

[Verse 2]

Last I heard that you was doin' tragic  
Passed out and alone in Calabasas  
Pulled up to your party just to crash it  
Just to trigger you and all these fucking plastics, it's classic  
You knew this would happen, you changed and it's drastic  
I can't fix the past, wonder how it even lasted  
You play like you changed, but it's all just an act  
When you really just cappin', it's fact that

[Pre-Chorus]

If I never seen you again, seen you again  
I would be fine, fine  
And I don't wanna be friends, I know how that ends  
You're wastin' my time

[Chorus]

I hope you have a bad day  
I hope you have a bad day  
I hope you have a terrible, horrible, no good, very bad day  
And I hope that I'm the reason for your bad day  
I hope you have a bad day  
I hope you have a terrible, horrible, no good, very bad day  
And I hope that I'm the reason

[Outro]

I hope you have a bad day

I hope you have a bad day

I hope you have a terrible, horrible, no good, very bad day

And I hope that I'm the reason
