

Brokenhearted

Blackbear

Yeah, she's a loaded gun
With no room to run
She don't got nobody
She's making her way in the USA
She making money
She's a hurricane
You can tell by the way she moves her body
She'll chew you up and spit you out
And leave your heart inside her mouth
Swallow the pride you keep inside
(Swallow the pride you keep inside)
Just like everybody

Sometimes her name is Heroin
I never let her in
Sometimes her name is Hollywood
Sometimes I think I should
Turn and run away cause every day her name is Heartbreak
Heartbreak

Everybody somebody's gonna break your heart [x4]
Cause everybody is brokenhearted

She's a smooth disease
Made to please and keep you coming
And she's on her knees
But you better believe she'll keep on running
And she's a closet freak
She'll beg and plead
Til you're left with nothing
She'll talk the talk if you cry the cry
She'll keep the change and leave you dry

Sometimes her name is Heroin
I never let her in
Sometimes her name is Hollywood
Sometimes I think I should
Turn and run away cause every day her name is Heartbreak
Heartbreak

Everybody somebody's gonna break your heart [x4]
Cause everybody is brokenhearted

Sometimes her name is Heroin
I never let her in
Sometimes her name is Hollywood
Sometimes I think I should
Turn and run away cause every day her name is Heartbreak
Heartbreak

Everybody somebody's gonna break your heart [x4]
Cause everybody is brokenhearted

Everybody [x2] somebody's gonna break your heart
Cause everybody's brokenhearted [x7]
