

Control Freak

Blackbear

I'ma take control
I'ma take control

And he don't gotta know
Where you going
Why you leaving
And when you coming home
I'ma take control
I'ma take control

Underneath the city lights
Together we can burn this city
Burn this city down

Girl I know you okay oh
And you don't got the time for it
I know...
I know he ain't fucking you right
Girl I can do it filthy
Tie your hands to the bed
Make you feel guilty
And pull your hair back
Up against the wall
Whisper in your ear (anything you want)

You don't gotta hide no more
I'll take control
I know I know I know I know
You feeling it too

(This is the last time you see your pretty girl)
And he don't gotta know
Where you going
Why you leaving
And when you coming home
I'ma take control
I'ma take control

Underneath the city lights
Together we can burn this city
Burn this city down

Girl I know you can't slow down
Ima make your eyes run there
I know I know I know you wanna tell me this life girl
Make it happen overnight girl
Best feeling in the morning cause you know I do it right
Breathing down your neck
Scratching up your sides
Whisper in your ear (anything you want)

(This is the last time you see your pretty girl)
And he don't gotta know
Where you going
Why you leaving
And when you coming home
I'ma take control

I'ma take control

Underneath the city lights
Together we can burn this city
Burn this city down

Anything you want this time
Anything you want this time
I'll give it to you...
Anything you want this time

Before you knew it we were filthy fucking
(And he don't gotta know)
Filthy fucking
(Where you going)
Filthy fucking
(Why you leaving
Or when you're coming home
I'ma take control
I'ma take control)

Underneath the city lights
Together we can burn this city
Burn this city down

I'ma take control
I'ma take control

And he don't gotta know
Where you going
Why you leaving
And when you coming home
I'ma take control
I'ma take control

Underneath the city lights
Together we can burn this city
Burn this city down
