

Demons

Blackbear

I just saw God
I just saw God
Outside the liquor store
He told me I was lost
Lost
Where were you again?
Somewhere with a friend
While I was in my head
I'm lost again, again
She turned around and said
That I was like the rest
That I don't understand the way it is, to hurt
I might have to cancel forever
I might have to cancel forever
I might have to cancel forever
I just saw God
I just saw God
Outside the liquor store
He told me I was lost
Lost
Where were you again?
Somewhere with a friend
While I was in my head
I'm lost again, again
She turned around and said
That I was like the rest
That I don't understand the way it is, to hurt
I might have to cancel forever
I might have to cancel forever
I might have to cancel forever
