

DOWN

Blackbear

I am always down every time you hit me up
I can't buckle down and say that it's enough
I'm always coming down, yeah
Almost every night, you're pulling up
Never get me high, high enough
Always coming down

So is it really love, when I'm up or I'm down?
Is it really down, when I'm up or I'm down?
Is you down, is you down?

When I'm up or I'm down
If the money ain't around
Is you ride or die?
Or is you ridin' out?
Would you leave me high and dry?
Would you dig me out the ground?
Would you leave me here to die, six feet down?

'Cause you were always down every time I hit you up
It's 3 AM, you tryna fuck
'Cause the club closed down
Shit has really got me down, it's fake as fuck
Hollywood love, who am I to judge?
Can't look down on you

And I need to make some better life decisions
And these women got me by the balls, I gotta just admit it
It's like a gallery, these cars and clothes and calories
I know damn well she's lyin' when she say that she ain't bad fo
r me

I'm down
When I'm up or I'm down
If the money ain't around
Is you ride or die?
Or is you ridin' out?
Would you leave me high and dry?
Would you dig me out the ground?
Would you leave me here to die, six feet down?
'Cause you were always down
