

Face to face

Blackbear

I've been sending pieces of my heart across the sea
I've been waiting by my mailbox all week
and I'm getting tired of being sick and tired
I want to close my eyes and count 1,2,3
and be back to the times when you were all mine
my little valentine we were meant to be
see I'm chasing every hope and dream so you can be with me and
feel what I feel and see what I

see you every night when I fall asleep you're in my mind
whenever you need me
whatever it might be
where ever you are
I'll swim ten thousand miles to have you in my arms
I'm out the door I'm on my way I'm out the door I'm on my way
I can't stop until we're face to face

I can't wait for the day when these feelings are erased
no more sleeping on the couch and I'll have my own place
with a four-car garage and a big backyard
no more flies in my wallet I'll say charge it to my card
we can be together I can take you out and no more kissing throu
gh the phone we'll be mouth to mouthand I'm chasing every hope
and dream so you can be with me and feel what I feel tonight I'
ll

see you every night when I fall asleep you're in my mind
whenever you need me
whatever it might be
where ever you are
I'll swim ten thousand miles to have you in my arms
I'm out the door I'm on way I'm out the door I'm on my way
I can't stop until we're face to face

every night you're in my dreams every night you're in my head
but I won't stop until you're in my bed I'll walk any road, I'll
l swim any sea just as long as you're here with me

see you every night when I fall asleep you're in my mind
whenever you need me
whatever it might be
where ever you are
I'll swim ten thousand miles to have you in my arms
I'm out the door I'm on my way I'm out the door I'm on my way
I can't stop until we're face to face

see you every night when I fall asleep you're in my mind
see you every night when I fall asleep you're in my mind
