

Go Go Gadget Feeling

Blackbear

Here, here we are
Wondering is thinking too much
Operation, it's indication
Can you tell me what we're falling for?
What is it that we're really falling for?

It's just a feeling
A feeling
But it's all I need
It's just a feeling
A feeling
But it's all I need
The feeling
All I need

There we were
I was wondering if we're dreaming enough
I never tell you that it's wrong when you fall down
If you fall then you need to be a little more safe
When it's hard to see that you're better then come around
I'll remind you that you never got to be afraid
Cause I got you, I got you
I got you, I got you
And you've got something good that they wish they had
That's why they're talking bad
Go get em tiger

I'll fall in this feeling
Please don't take this feeling away
I'll fall in this feeling
Please don't take this feeling away

It's just a feeling, a feeling
But it's all I need
I'll fall (It's just a feeling)
In this feeling (A feeling)
Please don't take this feeling away (But it's all I need)
It's just a feeling, a feeling
But it's all I need, all I need
