

HATE MY GUTS

Blackbear

Do you still like white wine, white wine
At the right time, right time?
Low lights
Do you still hate my guts? Baby, that's fine
Do you still get blacked out, go too hard?
Wake up feeling too far from where your home really is?
Don't know what I did, but I take it back, I was acting like a kid

Do you still get up in yo head, acting like the world's gonna end?
Do you still have that fear that no one's gonna love you for you?
Maybe I'm just stuck in the past
Nothing good ever lasts

We used to drive all night, all night
We would feel good, get high, now I wonder
Whatever happened to you?
Moved to the south side, south side
Made friends with the girls that you don't like
Whatever happened to you?

Whatever happened to you?

What happened to me? Wish you were here
Now I can see everything clear
Gone for a week, feels like a year
I've been sending texts, you ain't read it, I feel deleted
I feel defeated, kinda feel cheated
How you gonna walk up out my life, no reason?
Rules are gonna break and mistakes, gon' repeat it
But I can't let you tell me that you love me and believe it

Do you still get up in yo head, acting like the world's gonna end?
Do you still have that fear that no one's gonna love you for you?
Maybe I'm just stuck in the past
Nothing good ever lasts

We used to drive all night, all night
We would feel good, get high, now I wonder
Whatever happened to you?
Moved to the south side, south side
Made friends with the girls that you don't like
Whatever happened to you?

Whatever happened to you?
Whatever happened to you?
