Blackbear

[Verse 1]

I flew solo most of the way
Until you popped up and got in the way
And I mean that line in a good way
You should know I'm not goin' away

[Pre-Chorus]

'Cause in the suburbs, the sunsets don't matter
In the cities, people climb up little ladders

[Chorus]

But they can't see you the way that I do
I'm still black and blue, but you get me through
It's just such a vibe with you all the time
When I look in your eyes, I feel hazel inside
Hazel inside

[Verse 2]

I was in love when you said, "What's up?" (Ooh-ooh, ooh-ooh, ooh)
When I fall down, you pick me up (Ooh-ooh, ooh-ooh, ooh)
And not a day goes by, I don't fuck up (Ooh-ooh, ooh-ooh, ooh)
I think you should know that I'm not givin' up

[Pre-Chorus]

And there's some days the whole world's underwater
But somehow we still get a little stronger

[Chorus]

Because I got you the way that I do
I'm still black and blue, but you get me through
It's just such a vibe with you all the time
When I look in your eyes, I feel hazel inside
Hazel inside
