

HIGH1X

Blackbear

Yeah, yeah

I've been feeling
I've been feeling her, I've been feeling me
I've been feeling good, I've been feeling free
On the 101, driving real slow
I've been on the road, selling out shows
Hit 'em up I'm home, bring ya lil' girls
This right here my night, my world

I've been getting mines, everything on sight
I swipe to the left, she swipe to the right
She swipe to the right, right, right
And I'm taking my time
Doing everything right, right, right
Only get this high one time
That's right, right, right
I'ma lay right here, I'ma let you ride, ride, ride, uh

What you get for a year, I get on the side, on the side
Ain't no taking my time
Doing everything right, right, right, uh
Only get this high one time, time, time
I'ma lay right here, I'ma let you ride, ride, ride
Only get this high right here one time, yuh

Only get this high right here one time
Only get this high right here one

I've been feeling
I've been feeling her, I've been feeling me
I've been feeling myself, ayy, can't you see?
Ooh, In the fucking pocket, hella, hella options
Care what they say, kill the top, let 'em talk shit
Mainly for the freaks if you're feeling yourself
Let me hear you sing that shit from the belt

I've been getting mines, everything on sight
I swipe to the left, she swipe to the right
She swipe to the right, right, right
And I'm taking my time
Doing everything right, right, right
Only get this high one time
That's right, right, right
I'ma lay right here, I'ma let you ride, ride, ride, uh

What you get for a year I get on the side, on the side
And I'm taking my time
Doing everything right, right, right, uh
Only get this high one time, time, time
I'ma lay right here, I'ma let you ride, ride, ride
Only get this high right here one time, yuh

Only get this high right here one time
Only get this high right here one time
