

MAKE A MESS

Blackbear

Make a mess inside my heart
Leave your makeup everywhere
Move right in, tear me apart, yeah
Show me that you really care
I miss the kiss, and the wrong things
Disorder made it easier
Couldn't leave you, sinking under

I would drown for you
I was down for you
To make a mess inside my heart
Leave your makeup everywhere
Move right in, tear me apart
Show me that you really care, that you really care
That you really care

Make a mess inside my heart, heart
Make a mess inside my heart
Show me that you really care

Yeah, I let you wreck everything in sight
I must have been blinded
By that big old ass and that accent
You sittin' back and you laughin'
But I let it get so bad, I never stop
I was addicted to the way you made me work
For everything that I was given
And I let you make a mess of everything, I had no limit
So one minute, I'm in love with you, one day, I'll be conflicted
But for now, go 'head
And fuck up my whole life that I've been living

I would drown for you
I was down for you
To make a mess inside my heart
Leave your makeup everywhere
Move right in, tear me apart
Show me that you really care, that you really care

Make a mess inside my... heart
Make a mess inside my heart
Yeah, show me that you really care

I miss the kiss, and the wrong things
Disorder made it easier
Couldn't leave you, sinking under
I would drown for you
I was down for you to make a
Yeah, show me that you really care
