

PINK ROLEX

Blackbear

Seein' me draped in wool
It's Saint Laurent
And it's got your name and your city
In the back of my mind (On my mind)
My hearts iced over, I found a new owner
I hope it's all over
I can't die any slower than this (I can't die any slower than t
his)
Yeah, yeah

But I'm too scared to end it
There's no one to be friends with
But these people work for now
I'll just stay here in my mansion islands
Woo, yeah
(In the end, I'm the monster of the day)

And it's easy to feel shitty when these people are so pretty
On the socials, they're so perfect
On the inside, they so icky, ew, oh
(If you don't know that means, é o meu coração)

Got a new Rolex
It's pink and got diamonds
I hope it says multitudes about the places I've been, yeah

Seein' me draped in wool
It's Saint Laurent
And it's got your name and your city
In the back of my mind (On my mind)
My hearts iced over, I found a new owner
I hope it's all over
I can't die any slower than this

My hearts iced over, I found a new owner
I hope it's all over
I can't die any slower than this
