

Rosegold

Blackbear

Hey, beartrap sound

Hey, I need more than just a taste
Need you all up in my face
Your last man keep him erased
Swoop you up inside that '63 Wagon
All black and new rims and windows blackened
Oh yeah, the system blastin'
No need to be dramatic
I want you
I need you
When I tell you, girl, to come through
Better come through
Better come through

But if you're leaving
Please don't leave me wanting something more
Please don't leave me naked on the floor
I can't sleep away without you under me
Only thing I'm asking for

Don't spend my money
Please don't waste my time
Girl, just drop it for me, we ain't got all night
If you ain't with the sh*ts girl go get back in line
You say you're a good girl, I know thats a lie
Change you to a bad one overnight
Overnight [?]
I got the cash at my disposal
Flight to catch in the morning
If you're with it then lets go
Look good on me like rosegold

But if you're leaving
Please don't leave me wanting something more

Please don't leave me naked on the floor
I can't sleep away without you under me
Only thing I'm asking for

Don't spend my money
Please don't waste my time
Girl, just drop it for me, we ain't got all night
If you ain't with the sh*ts girl go get back in line
You say you're a good girl, I know thats a lie
Change you to a bad one overnight

Look good on me like rosegold
