

## sidelines

Blackbear

(Broken on the sidelines)  
(Waiting on the)  
I'm waiting on the sidelines

What it is? Little mama tryna function  
And everyone around you, can't rely on  
Lately you more dead than alive  
(Lately you more dead than alive)

I wanna go to that place, rewind  
Can we rewind?  
I wanna go to that place, rewind  
Can we rewind?  
Waiting on the sidelines  
Just waiting on the sidelines

If I can't love you  
Don't want nobody else to  
If I can't love you  
I don't want nobody else to  
I don't want nobody else to, baby

Ooh, what it is, what it is?  
What you tryna do? (What you tryna do?)  
Sick of waitin' around on the side for you  
Lately I'm depressed and so tired  
Keepin' up with what you require

I can't believe I called you babe  
What can I say?  
Can't seem to change what stays the same  
I'll make you stay  
Waiting on the sidelines  
Waiting on the (Sidelines)

If I can't love you  
Don't want nobody else to  
If I can't love you  
I don't want nobody else to  
I don't want nobody else to, baby

I don't want all this shit to change, this shit to change  
I don't want all this shit to change, but people change  
We're just waiting on the sidelines (I'm waiting on the sidelines)  
I don't want all this shit to change, this shit to change  
I don't want all this shit to change, but people change  
We're just waiting on the sidelines  
Yeah, yeah, oh, oh
