

# So high

Blackbear

Give me more Sativa, Need to  
Treat this weekend like a highschool senior  
Invite the super bad chicks and the mean girls  
I call it double feature  
I like the kush with the crystals  
I like the smoke out my window  
Every morning if you didn't know  
I like them shorts you've got on tho  
You can get it tho  
See you go  
Oh, Drop it low  
And shorty let your hair down and back in  
I treat your body like it's my own profession  
And next is no question, Lets get it  
I like my eyes low  
Smoking L in the back of the Benzo  
Got an actress on my mattress  
Maybe its the SoCo

I like to get high  
With my friends all the time  
Don't got nothing on my mind, im good

You make me so high  
You bring me alive  
So high  
So... [x2]

Last night was a movie  
I fell asleep in a champagne blue dream  
I dont know the whole nine  
Just fireworks and strobelights  
Money down the ball like  
Im outta control right  
I like my blunts rolled tight  
Smoking homegrown i  
Got that kinda lifestyle  
Want to make them say, Oh Down ain't by that life  
This hoes ain't no housewives  
Im getting my mind right  
Lets go

I like to get high  
With my friends all the time  
Don't got nothing on my mind, Im good  
Im good (you make me so high)  
Im good (you bring me alive, so high)  
Im good (so high)

I like to get high  
With my friends all the time  
Dont got nothing on my mind, im good

Last night was a movie  
I fell asleep in a champagne blue dream  
So high [x3]
