

Summer Love

Blackbear

Longer, longer
Longer, yeah
I'll spend my summer love on you, ooh-ooh

Don't make me wait around
Any longer, thought I told you
That I could hold you down
I could show you, oh, ooh-ooh
Why ain't you tryin' to call me your baby?
Like what's the deal?
Gettin' tired of all the explaining
Tell me if this real
You want it baby, just say it
Boy quit playin'
Can't wait around the whole summer long

I was thinking later on, we could go out
Turn the radio, radio down
You know, you know, you know
I'll spend my summer love, spend my summer love on you
Spend my summer love on you, ooh-ooh, ooh
What do we got left to do? To do
I'll figure out the rest with you, with you
And spend my summer love on you

I'll spend my summer love on you, ooh-ooh, ooh
I'll spend my summer love on you, ooh-ooh, ooh

Why you been actin' kinda shady, like you for real?
Stop breakin' plans and changin', tell me something real
If you want it baby, just say it
Could be us but you playin'
Don't wait around, get close I'm alone

I was thinking later on, we could go out
Turn the radio, radio down
You know, you know, you know
I'll spend my summer love, spend my summer love on you
Spend my summer love on you, ooh-ooh, ooh
What do we got left to do? To do
I'll figure out the rest with you, with you
And spend my summer love on you

Spend my summer love on you, ooh-ooh, ooh
What do we got left to do? To do
I'll figure out the rest with you, with you
And spend my summer love on you

I'll spend my summer love on you, ooh-ooh, ooh

You know, you know, you know
I'll spend my summer love, spend my summer love on you
