

Take my time

Blackbear

With all of the questions I have and all of the answers I need
Still there's a voice in my past couldn't change me
One chance to miss all I lost and one more to get back my heart
No one could love me like this oh but you, you did

So I'll take my time loving you
No wonder I lie awake because I, I'm in no hurry at all
I hold the world, I hold the world when I hold you
When I hold you
When I hold you

Sweet 65 comfort me
Take me where you want me to be
Oh only she knows where I belong tonight
Just me and my girl under dixie lights

Where I take my time loving you
No wonder I lie awake because I, I'm in no hurry at all
I hold the world, I hold the world when I hold you oh
Oh

When I hold you (4x)

So I'll take my time loving you
No wonder I lie awake because I, I'm in no hurry at all
I hold the world, I hold the world when I hold you
