

# the idea

Blackbear

[Intro]  
Yeah, yeah  
Yeah, yeah

[Chorus]  
How do you fall asleep without me here?  
I see right through you, I see you so clear  
Wake up my demons and my biggest fears  
Are you in love with me or the idea? (Yeah)

[Verse 1]  
Too many skeletons in my closet  
God, if You're listening, You need to call me  
Drunk off a feeling, I don't wanna stop it  
What is the meaning?  
Swear the drugs don't help me, it's a problem  
This ain't love, I don't know what to call it  
Run and tell your girlfriends that you hate me  
I think we're too far from saving

[Pre-Chorus]  
Same old story, Hollywood's on fire  
Three nights in a row doin' blow, are you tired?  
Tell me

[Chorus]  
How do you fall asleep without me here?  
I see right through you, I see you so clear  
Wake up my demons and my biggest fears  
Are you in love with me or the idea?

[Post-Chorus]  
Are you in love with me or the idea? (Yeah)

[Verse 2]  
Too many bridges I, I done burned up  
Why you only hittin' me when you're turnt up?  
Hearts made of plastic, it ain't real love  
What is the meaning?  
Swear that you don't really need me, just the moment  
Go 'head, crop me from the photos  
Run and tell your girlfriends that you hate me  
I know we're too far from saving

[Pre-Chorus]  
Are you in love with the heartbreak? It's tough  
'Cause when I saw you last week, you were lookin' pretty rough  
And it's the same old story, Hollywood's on fire  
Three nights in a row doin' blow, are you tired?  
Tell me

[Chorus]  
How do you fall asleep without me here?  
I see right through you, I see you so clear  
Wake up my demons and my biggest fears  
Are you in love with me or the idea?

[Post-Chorus]

Are you in love with me or the idea? (Yeah)

[Bridge]

Look at this mess all around me  
You should have left how you found me  
Death is easy, life is hard  
I hate how this ending is sounding  
You left your cigarette burning  
On top of the pictures, you hurt me  
Death is easy, life is hard  
And livin' without you is worse for me, so

[Chorus]

How do you fall asleep without me here?  
I see right through you, I see you so clear  
Wake up my demons and my biggest fears  
Are you in love with me or the idea?

[Post-Chorus]

Are you in love with me or the idea?
