TOO CLOSE

Blackbear

Yeah
I swear I'm an athlete with this shit, yeah, pro
Yeah, yeah

'Round me
I see that look, that fuckin' look you got around me
I slide on up, I say what's up, I'm tryna bounce, see?
I don't wanna hear about your weak ass little boyfriend
Hop in the Bentley, girl, quit playin', ain't no time for that, time for that
What you think, that I'd be fine with that? You ain't a dime like that
I'm a walking paper trail
No need to follow, you too slow
I'ma do us both a favor, see you later, gotta go, uh

Look at the way that I shine
Look at the way that I go
Look at the way that I ooh
Look at the way that I glow
Nothin' can touch the kid
You gettin' way too close, woah
You gettin' way too close
Yeah, yeah, yeah
Look at the way that I drip
Look at the drench on the kid
Look at the path that I chose
I really chose to be this
You couldn't fuck with the kid
You gettin' way too close, uh
Just thought I'd let you know, uh

Yeah, yeah, yeah
Yeah, yeah, yeah, yeah, yeah, yeah
You gettin' way too close
Yeah, yeah, yeah
Yeah, yeah, yeah, yeah, yeah, yeah, woah

Please don't doubt me
I'll go past any obstacle you put around me
I take what's mine and once I set my mind I'm out it
Could give a fuck 'bout who you wearin' in your clouty
I'm killing everything, I'm a walking fucking bounty
You slidin' in DMs, already took a downy
I made three million this year, but shit, who's counting?
I'm a walking paper trail, your Siri is rerouting
Yeah, yeah, uh (At your service)

Look at the way that I shine
Look at the way that I go
Look at the way that I ooh
Look at the way that I glow
Nothin' can touch the kid
You gettin' way too close, woah
You gettin' way too close
Yeah, yeah, yeah
Look at the way that I drip
Look at the drench on the kid

Look at the path that I chose
I really chose to be this
You couldn't fuck with the kid
You gettin' way too close, uh
Just thought I'd let you know, uh

Yeah, yeah, yeah
Yeah, yeah, yeah, yeah, yeah, yeah
You gettin' way too close
Yeah, yeah, yeah
Yeah, yeah, yeah, yeah, yeah, yeah, woah
