Blackbear

[Intro: blackbear]

Yeah
Woah, yeah
Yeah

[Verse 1: blackbear]

It's been over for a year or so
I should've left a couple tears ago
And even when I'm with you, I still feel alone
Got me down on my knees
Heart is froze, I don't feel nothin'
Drinkin' and drugs just to feel somethin'
Stranger outside, can you let me in?
Can you love me back, please?

[Pre-Chorus: blackbear]

Can the past stop repeatin'?
Can you let me down easy?

[Chorus: blackbear]

You're selfish, selfish, how do you love?
Too much, too much, never enough
You're a liar, liar, who can I trust?
I love you, you love you more
You're selfish, selfish, how do you love?
Too much, too much, never enough
You're a liar, liar, who can I trust?
I love you, you love you more

[Verse 2: Tate McRae & blackbear]

Sometimes I wanna call, but I got shit to do
I'm tryin' to forget, but then I'm missin' you
Addicted to yourself, you gotta read the room
'Cause ain't nobody watchin', but you think they do (Think they do)
Yeah, tell me what you want from me
Can you love me back, please? (Love me back)
Tell me what you want from me (Tell me what you want from me)
Can you love me back, you love me back, please?

[Chorus: blackbear, blackbear & Tate McRae]

You're selfish, selfish, how do you love?
Too much, too much, never enough
You're a liar, liar, who can I trust?
I love you, you love you more
You're selfish, selfish, how do you love?
Too much, too much, never enough
You're a liar, liar, who can I trust?
I love you, you love you more

[Bridge: Tate McRae & blackbear]

Tell me what you want from me
Can you love me back, please?
Tell me what you want from me, ayy, oh
Tell me what you want from me
Can you love me back, please? (Can you love me back?)
Tell me what you want from me
Can you love me back, you love me back, please? (Ooh)

[Chorus: blackbear, blackbear & Tate McRae]

You're selfish, selfish, how do you love?

Too much, too much, never enough

You're a liar, liar, who can I trust?

I love you, you love you more

You're selfish, selfish, how do you love?

Too much, too much, never enough

You're a liar, liar, who can I trust?

I love you, you love you more

[Outro: blackbear]

Tell me what you want from me

Can you love me back, please?

Tell me what you want from me

I love you, you love you more
