

# All Over the Road

Blackberry Smoke

I got a half a tank of gas and a fist full of overdrive  
Boss man probably wonderin' if I'm still alive  
High line poles swayin' as I'm flyin' by  
Throw a bottle, break it on the city limit sign

Ain't a taillight for as far as I can see  
Fuzz buster just in case the man is clockin' me  
A hundred miles down, about a hundred more to go  
I'm steady rollin', yeah there's one thing I know

Middle of the night and I'm makin' good time  
Sweet mama waitin' at the end of my line  
Headed back to her fast as I can go  
Somebody get the wheel, I'm all over the road  
All over the road

I had enough of diggin' ditches in the Florida sun  
You wanna see a man over it, I'll show you one  
I'm comin' home where they take the bad with the good  
I might do better if I thought that I could

Got a sweet thang, gonna take care of me  
Won't make no trouble, yeah we'll ease it back and live it free  
I light a cigarette and cross the Alabama line  
I know that everything'll be just fine

Middle of the night and I'm makin' good time  
Sweet mama waitin' at the end of my line  
Headed back to her fast as I can go  
Somebody get the wheel, I'm all over the road  
All over the road

Woah  
If I've learned anything it's to go with what you know  
I'm gonna stay as close as any stone that you could throw  
I will be as right as the rain on a summer day  
Aw, get ready mama  
I sure am on my way  
Yeah

Middle of the night and I'm makin' good time  
Sweet mama waitin' at the end of my line  
Headed back to her fast as I can go  
Somebody get the wheel, I'm all over the road  
All over the road  
All over the road
