

Best Seat in the House

Blackberry Smoke

Did you ever get the feeling
You ain't been dealt a good hand
The odds are against you
You're a slave to the law of the land
I'm gonna gather unto me
What must be mine
I want it all right now
Not a little at a time

Thinking 'bout a revolution
The first world join the land

We all want what we ain't got
Some of us have and some have not
Everything I got coming to me
Life, love, money and the land of the free
All my life I've been turned down
One of these days
I'll get the best seat in the house

You got a right to your opinion
You got a right to speak your peace
You got a right to be silent
Well that ain't ever worked for me
We're going through the system
It'll chew you up and spit you out
In the land of confusion
Well now, that's what it's all about
Thinking bout the evolution
Have we always been in the ground

We all want what we ain't got
Some of us have and some have not
Everything I got coming to me
Life, love, money and the land of the free
All my life I've been turned down
One of these days
I'll get the best seat in the house

It's the measure of a man
Of a man
Does anyone even understand
A man, understand

We all want what we ain't got
Some of us have and some have not
Everything I got coming to me
Life, love, money and the land of the free
All my life I've been turned down
One of these days
I'll get the best seat in the house
Best seat in the house
The best seat in the house
The best seat in the house, oh
