

## Like an Arrow

Blackberry Smoke

Take the straightest shot that you can  
I won't move from where I stand  
It's a heavy burden to bear  
I've earned every scar I wear  
I feel no shame it's just more and more  
Of the same

We all live and die  
Time will always roll on by  
Like an arrow we will fly  
Some stay low and some get high

Run your fingers over the flame  
That's about as close as you came  
It's a narrow way after all  
Waitin' for the hammer to fall

I see no end here we go  
Again and again

We all live and die  
Time will always roll on by  
Like an arrow we will fly  
Some stay low and some get high

Yea we try and try I can't find  
The light in the sky
