

# Live It Down

Blackberry Smoke

Feel like I start swingin'  
Soon as my two feet hit the floor  
The hands of time keep spinnin'  
Everybody knockin' down my door  
Ya know I get a little nervous  
When my telephone starts to ring  
Ol' credit man keeps callin'  
He ain't gettin' a goddamn thing

I can't make the wheels roll  
With your first check in the hole  
I wish I could click my heels  
And jump on the golden road  
I'd be walkin'  
Yes, I would

There's gonna come a day  
You will hear me say

Oh, give me all that I can carry  
Oh, said it's cheaper by the pound  
Oh, come on, baby, doncha worry  
Let's live it up till we can't live it down  
Can't live it down

Reachin' up from the bottom  
I tell ya it's a bitch  
It's a helluva thing to break your back  
Just to make another man rich

Ain't no pie in the sky  
When you're barely gettin' by  
Every day's on layaway  
And it's tryin' to bleed me dry  
Got me runnin'  
Yes, I am

Honey, fill my cup  
Yeah, we gonna live it up

Oh, give me all that I can carry  
Oh, said it's cheaper by the pound  
Oh, come on, baby, doncha worry  
Let's live it up till we can't live it down

Let it loose mama  
I can see that ship comin' in  
Let it loose mama  
Yeah, we gonna get down again, gonna get down

Oh, give me all that I can carry  
Oh, said it's cheaper by the pound  
Oh, come on, baby, doncha worry  
Let's live it up till we can't live it down  
Can't live it down  
Can't live it down
