

Scare the devil

Blackberry Smoke

1, 2, 3, 4

Yeah

I got this self-tied noose around my neck
I'm standing on the tracks just waiting for my own trainwreck
Keep yourself on your side and I'll keep me on mine
Keep yourself to yourself and we'll get along just fine

You say the devil made you do it with a smile
Raising hell and howling at the moon
Well, I'm gonna put your ass back in line
I'm gonna scare the devil outta you
Come on, baby

Well, you can take your good advice and shove it up your ass
In the race of life, I'm always gonna come out last, now
I can walk the line and, honey, I can toe the mark
You know you got time to slow them all, yeah

You say the devil made you do it with a smile
Raising hell and howling at the moon
Well, I'm gonna put your ass back in line
I'm gonna scare the devil outta you

Self-tied noose around my neck
Well, I'm standing on the tracks just waiting for my own trainwreck
Keep yourself on your side and I'll keep me on mine
Keep yourself to yourself and we'll get along just fine

You say the devil made you do it with a smile
Raising hell and howling at the moon
Well, I'm gonna put your ass back in line
I'm gonna scare the devil out of you

You say the devil made you do it with a smile, yeah
Raising hell and howling at the moon
Well, I'm gonna put your ass back in line
I'm gonna scare the devil outta you, you, you
Come on
