

## Six Ways To Sunday

Blackberry Smoke

I'm gonna love you six ways to Sunday  
I wanna do it like it's never been done  
I'm gonna love you six ways to Sunday  
I wanna hear that woman speaking in tongues

Brother I been backslidin' just a little too long  
You'd think I'd know by now what's right and what's wrong  
Living it up when the skies ain't blue  
Chasing my tail, a couple other ones, too

I'm gonna love you six ways to Sunday  
I'm gonna do it like it's never been done  
I'm gonna love you six ways to Sunday  
I wanna hear my baby speaking in tongues

Honey I'll pick up the snakes and drink the strychnine too  
As long as I get a chance to lay my hands on you  
I got my mind right, toe-in' the line  
Look up and tell me does my halo shine?

I'm gonna love you six ways to Sunday  
I'm gonna do it like it's never been done  
I'm gonna love you six ways to Sunday  
I wanna hear that woman speaking in tongues

You knocked the angel right off of my shoulder  
Right away my lil devil took over  
Woman if you need a disciple  
We can have a little revival

I'm gonna love you six ways to Sunday  
I'm gonna love you six ways to Sunday  
I'm gonna love you six ways to Sunday  
I'm gonna love you six ways to Sunday  
Yeah
