

Let Me In

Blackbriar

Eat me up, swallow me alive
Open those enormous jaws and let me glide
Glide down your throat, swallow me whole
Let me inside and take me into the unknown

Eat me up, swallow me alive
Open your enormous maw and let me dive
Dive into your soul, swallow me whole
Let us collide and we will never be alone

Let me in, let me in
Let me under your skin
Let me in, let me in
I want to see it all
I want to know everything

Eat me up, swallow me alive
Open your enormous mouth and let me slide
Slide down your bones, swallow me whole
Let us unite and show me all there is to know

Let me in, let me in
Let me under your skin
Let me in, let me in
I want to see it all
I want to know everything

Eat me up, eat me up
I want you to eat me up

Eat me up, swallow me alive
Open those enormous jaws

And let me in, let me in
Let me under your skin
Let me in, let me in
I want to see it all, I want to know everything
