(Dream on,) Yes now you've gone way too far,
Tried to steal my lovin'
Thinkin' I was your star,
(You fool,) Oh to think that I was blind,
To take my love and turn it round and treat it so unkind,

(I feel it,) Yes I feel it coming on,
A little more lip, and honey soon you'll be gone,
(Those eyes,) Oh I know it like I do,
Your Mister Moneybags is gonna say goodbye to you,

You didn't know me when I was down,
Now you know me when I come around,
So dream on, Yes dream on,
Well if you can't take it with you, when you die,
No good to have it when you're alive,
(Dream on)

(Shot down,) Like a bullet from a gun, Another man in my bed, is that you're kind of fun, (Missed by,) Oh ha!, you missed me by a mile! I can see that guilty look in your smile,

How could you be so heartless and cruel,

used my love as a one-sided tool,
Dream on, Yes, dream on
Boo hoo
Well if you can't take it with you, honey when you die,
No good to have it baby when you're alive,
(Shot)

(Good bye,) Oh I won't be the same
Boo hoo, cause I'm fed up with your game
(Too bad,) Yes too bad for the change
This crazy lullaby is what it seems a little strange

You didn't know me when I was down
Now you know me baby, when I come around,
So dream on, Yes dream on,
Well if you can't take it with me, honey when I die,
No good to have you sinnin' while I'm alive,
(Shot)
