

# Highway Song

Blackfoot

Well, another day, another dollar  
After I've sang and hollered  
Oh, it's my way of living, and I can't change a thing  
Another town is drawing near  
Oh, baby, I wish you were here  
But the only way I can see you, darlin', is in my dreams  
It's a highway song  
You sing it on and on  
On and on

Well, the hurt you leave behind  
It's the hurt that's on your mind  
Oh, and last night's show took its toll on me  
Well the city lights fly by me  
As I lay my body in my bed  
Oh, and dreams of you dance through my head  
It's a highway song  
You sing it on and on  
On and on  
Highway song  
Is as lonely  
As the road I'm on

Oh  
Oh  
Oh

It's those big wheels are ready to roll  
We've be flyin' high and so low  
Lord, and all this madness, ain't crazy as it seems  
Everywhere they stop and stare  
I'm just a stranger on this road  
Oh, I stand alone  
Only in my dream

Highway song  
You sing it on and on  
On and on  
Highway song  
Is as lonely  
As the road I'm on  
(Well, highway song)  
Highway song  
You sing it on and on  
On and on  
Highway song  
Is as lonely  
As the road I'm on
