

## Southern Native

Blackfoot

Down in the swamps of Florida is where I feel right at home  
Hangin' with my Seminole brothers we where trying to roll the b  
ones

Drove all night in the pouring rain just to make a dime  
Headed on up to New Orleans selling prayers and shine

Got my laid back living and rainy nights  
My sweet street justice shining on my life  
I'm a southern native born and bred when I die by God I'll be s  
outhern dead

I got a suitcase full of pictures  
Reflections of my youth  
Music is my saving grace  
My guitar just told the truth

Daddy was a Native American man, momma was a southern belle  
Memphis blues and old tattoos things I know so well

Like that laid back living and rainy nights  
My sweet street justice shining on my life  
I'm a southern native born and bred when I die by God I'll be s  
outhern dead

We're all celebrated  
We're southern to the bone  
Texas to Carolina I'll take 95 back home

I see the light of the Georgia moon telling me where to go  
Hear the call of the voodoo child, politician money man  
Leave alone our sacred land

And laid back living and rainy nights  
My sweet street justice shining on my life  
I'm a southern native born and bred  
Southern native born and bred  
I'm a southern native born and bred when I die by God I'll be s  
outhern dead  
Southern native born and bred southern native born and bred
