

Champagne High

BlackHawk

I wasn't looking for a lifetime with you
I never thought it would hurt just to hear "I do" and "I do"
And I do a number on myself and all that I thought to be
And you'll be the one who's just left me undone by my own hesitation

And for the million hours that we were
Well I'll smile and remember it all then I'll turn and go
While your story's completed mine is a long way from done

I'm on a champagne high
Where will I be when I stop wondering why
On a champagne high
High

Spring turned to summer then winter turned to mean
The distance seemed right at the time it was best to leave
And to leave behind what I once thought was fine and so real to me
And while I'm still gone on the quest for my song I'm at your celebra-
tion

And for the million hours that we were
Well I'll smile and remember it all then I'll turn and go
While your story's completed mine is a long way from done

I'm on a champagne high
Where will I be when I stop wondering why
On a champagne high
I'd toast to the future but that'd be a lie
On a champagne high
High

Your wagon's been hitched to a star
Well now he'll be your thing that's new
Yeah what little I have you can borrow
'Cause I'm old, I'm blue...

And for the million hours that we were
Well I'll smile and remember it all then I'll turn and go

I'm on a champagne high
Where will I be when I stop wondering why
On a champagne high
I'd toast to the future but that'd be a lie
On a champagne high
Where will I be when I stop wondering why
On a champagne high
High
