

## Heavy Hand

BlackHawk

If everything you say is true  
And there ain't nothin' I can do  
If that's how you want it that's o.k  
But you don't just throw it all away

Leave the door open when you go  
You might be back you never know  
Don't burn the bridges left behind  
Cause you might wanna change your mind

You gotta be careful with the words you say  
Cause hearts are fragile sometimes they break  
Let me down easy don't you understand  
You can't treat love with a heavy hand  
No, you can't treat love with a heavy hand

Don't you walk away too fast  
Cause dreams can shatter just like glass  
And cut you deep just like a knife  
If you don't handle it just right

You gotta be careful with the words you say  
Cause hearts are fragile sometimes they break  
Let me down easy don't you understand  
You can't treat love with a heavy hand  
No, you can't treat love with a heavy hand

You can't hold on when the love is gone  
Try to take it easy when you go

You gotta be careful with the words you say  
Cause hearts are fragile sometimes they break  
Let me down easy don't you understand  
You can't treat love with a heavy hand  
No, you can't treat love with a heavy hand  
You can't treat love with a heavy hand
