

Night Light

Blackjack Billy

There ain't a worry in the world pretty girl
Let me ease your mind, ease your mind
Make a little room let me lay with you
And I won't leave your side, leave your side
I'll even sing my sweet child a lullaby

You know you're safe with me
I ain't going nowhere, you can fall asleep
Dream a little dream, it's gonna be alright
Girl, I'll be your night light
Don't be afraid of the dark
You don't need to worry cause wherever you are
I'll be there to hold ya for the rest of your life
Girl, I'll be your night light

And if you wanna lay your head on my chest
I will hold you tight, hold you tight
I'll lay awake while you're drifting away
So go and close your eyes, close your eyes
And sweet sleep child I'll sing you a lullaby

Cause you're safe with me
I ain't going nowhere, you can fall asleep
Dream a little dream, it's gonna be alright
Girl, I'll be your night light
Don't be afraid of the dark
You don't need to worry cause wherever you are
I'll be there to hold ya for the rest of your life
Girl, I'll be your night light

La la la la
La la la la

You know you're safe with me
I ain't going nowhere, you can fall asleep
I'll be here to hold ya for the rest of your life
Girl, I'll be your night light
