Sneaky Jesus

Blackjack Billy

Well I must confess, that I've been blessed
Never seen a temptation that I couldn't resist
Everywhere I look I'm seeing the signs
There's someone up there keeping me in line
Well the devil's got his tricks, but the lord does too
He's got a funny way of creepin' up on you
When you hit that fork in the road
Well next thing you know

The sun starts shinin' through the clouds just right
You ain't even lookin' but you see the light
The right song comes on the radio
Puts a smile on your face and heals your soul
You can't see it but you best believe it, just when you need it
Look out, here comes, sneaky Jesus

Ain't gotta be in church to hear the good word
I can see it everywhere on God's green Earth
It's in the sun and the trees, sawin' in the breeze
I believe in the gospel of the simple things
I tried to [?] and I want it back
I try to give a little more than what I ask
When you don't know what to do, right outta the blue

The sun starts shinin' through the clouds just right
You ain't even lookin' but you see the light
The right song comes on the radio
Puts a smile on your face and heals your soul
You can't see it but you best believe it, just when you need it
Look out, here comes, sneaky Jesus

Well your never really to far gone from the gospel truth
Have you heard the good news?
If your singin' along to this song
Well sneaky Jesus done snuck up on you

The sun starts shinin' through the clouds just right
You ain't even lookin' but you see the light
The right song comes on the radio
Puts a smile on your face and heals your soul
You can't see it but you best believe it ya'll, just when you n
eed it
Look out, here comes, sneaky Jesus, sneaky Jesus, sneaky Jesus,
 sneaky Jesus
