

Alone Tonight

Blacklite District

Two bones, all alone
And not a thing else left to lose
I try my last hand and it goes as planned
I finally get what's due
I make a move, try to catch this groove
Celebrate history we meet
Yeah, we all got paid
Make it a double
Make it two, keep them comin' around
And around, and around

When she looks at me
The night is still
Suddenly, I see everything that I ever dreamed of

Silhouette by laser light
Can't believe you're alone
You're alone tonight
Two shots 'cause the time is right
I'm alone, I'm alone
I'm alone tonight
And if your eyes tell the truth
Then there's just one thing to do
Hold me close, hold me so damn tight
You're alone, all alone, we're alone
All alone tonight

Pay the debt
Here I come and think about
The high cost of livin' free
The darkest smile in a vision's far away
Like shadows next to me

When she looks at me
The night is still
Suddenly, I see everything that I ever dreamed of

Silhouette by laser light
Can't believe you're alone
You're alone tonight
Two shots 'cause the time is right
I'm alone, I'm alone
I'm alone tonight
And if your eyes tell the truth
Then there's just one thing to do
Hold me close, hold me so damn tight
You're alone, all alone, we're alone
I'm alone tonight

Silhouette by laser light
Can't believe you're alone
You're alone tonight
Two shots 'cause the time is right
I'm alone, I'm alone
I'm alone tonight
And if your eyes tell the truth
Then there's just one thing to do

Hold me close, hold me so damn tight
You're alone, all alone, we're alone
I'm alone tonight
(I'm alone, we're alone, all alone tonight)
(All alone, you're alone, I'm alone
We're alone, all alone tonight)
(All alone, all alone tonight)
