Be Afraid

Blacklite District

I convinced myself that I was bulletproof
Scream for help and no-one ever heard the truth
Loneliness inside I wait for paradise
But it never came, I sat here paralyzed

Run away, sail away
Be afraid, be afraid

I, I will drown you out
I will hear no sound, I will not be found

I convinced myself that I was bulletproof
Scream for help and no-one ever heard the truth
Loneliness inside I wait for paradise
But it never came, I sat here paralyzed

Run away, sail away
Be afraid, be afraid

I, I will drown you out
I will hear no sound, I will not be found
I, I will drown you out
I will hear no sound, I will not be found
