

Confessed

Blacklite District

Life becomes numbing
Sick to my stomach
I just cannot feel
I try to resist it
They want me to fix it
But I know that I'm real
Real fucked up a long time
Years they have flown by
I try to maintain
Maintain a distance
Right here within us
This is my domain

I did my time
It's all for you
Despite the pain I'm going through
I gave my all
I did my best
It got so cold when you confessed
To it all

Lies become sickness
Playing the victim
You don't want the truth
Know what the risk is
Granted the wishes
What else could I do
You go your own way
Leave me and someday
You will understand
The love that I gave you
Still couldn't save you
Never yours again

I did my time
It's all for you
Despite the pain I'm going through
I gave my all
I did my best
It got so cold when you confessed
To it all
Yeah, yeah
Yeah

I gave my all
I did my best
It got so cold when you confessed
I did my time
It's all for you
Despite the pain I'm going through
I gave my all
I did my best
It got so cold when you confessed
To it all
Yeah, yeah
Yeah
